2026 HEDIS® & Risk Adjustment Data Collection

This is an advisory notification to Molina Healthcare of California (MHC) network providers applicable to all lines of business.

What you need to know:

Dear Practitioners & Office Managers:

The Healthcare Effectiveness Data and Information Set (**HEDIS®**) from the National Committee for Quality Assurance (**NCQA**) is a well-known and respected tool used by more than 90 percent of American health plans to report performance on quality of care and services. The Centers for Medicare & Medicaid Services (**CMS**) uses Risk Adjustment diagnosis codes and demographic data to appropriately report and produce complete and accurate diagnosis and the health status of Medicare enrollees.

HEDIS® and Risk Adjustment data collection and reporting is part of quality improvement and performance assessment, which is mandated by the State and Federal regulatory agencies and national accreditation body.

When this is happening:

MHC, with your assistance, will facilitate a medical record review and begin collecting and compiling **HEDIS® and Risk Adjustment data**.

Beginning **February 02, 2026**, MHC staff will contact you to arrange a convenient collection method of required medical record information.

Provider Action

To provide adequate time and prepare the requested information, a member list with required medical record information will be provided and communicated to you. We welcome you to send records fast, quick, and secure by utilizing our Secure Email:

MHC can also coordinate site visits to access medical records as well, please contact us at **1-562-380-3376**.

As a reminder, providers must follow all HIPAA, State, and Plan contractual requirements when submitting member records that contain PHI electronically via email.

Thank you for your assistance in this effort and for your continued work to improve the health of our members and communities.

Sincerely,

Molina Healthcare of California
